EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis Woo on 21 March 2007.

The application has been amended as follows:

In claim 10, line 3, after "a needle hub integrally", "extending from" has been replaced with —mounted on—

In claim 18, line 3, after "having a smaller circumference than said", "needle" has been replaced with —syringe—

In claim 18, line 5, after "a needle fixedly", "extending from" has been replaced with —mounted on—

In claim 27, line 4, after "having a smaller circumference than said", "needle" has been replaced with —syringe—

In claim 27, line 9, after "a needle fixedly", "extending from" has been replaced with —mounted on—

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest a needle fixedly mounted on an integrally extending needle hub, in combination with the other limitations of the claims. Ferguson (US 7,029,461)

teaches the needle is mounted on needle hub 50, which is not integral to the syringe. If Ferguson were modified to make needle hub 50 integral to the syringe, then it would destroy the annular space recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth R. MacNeill whose telephone number is (571)-272-9970. The examiner can normally be reached on 7:00-3:30pm M-F.
